Environmental Compliance

RoHS and REACH Updates

Thursday, February 9, 2012

Global environmental compliance regulations, what you don't know can have a very large negative impact on your company's bottom line.

If your product's destination is to any of the countries or regions below, you need to understand what materials it cannot contain.

EU RoHS Recast Directive 2011/65/EU

European Union, which is comprised of 27 EU member states, has revised the Restriction of Hazardous Substances Directive, Directive 2011/65/EU, commonly referred to as EU RoHS. The seminar will identify the significant changes, their impact to selected functions and what needs to be done to achieve and maintain compliance.

EU REACH Update

We will explore the current differing opinions in regards to the definition of an article and how it would impact manufacturers who export product to the EU. The list of **Substances of Very High Concern** continues to expand, could you disclose the SVHCs in your articles if asked?

China RoHS Update

Where are we, phase 1 is in place, has phase 2 begun? This update will provide the answers.

Vietnam RoHS, India RoHS/WEEE are these the same as China and EU RoHS?

Attend and discover what you need to know.

About the Speaker:

Ken Stanvick has over 28 years of hands on experience in the High Tech Electronics Industry. His responsibilities have spanned the roles of individual contributor, manager, and independent strategic advisor to executive management. Prior to co-founding DCA, he held various individual contributor and management positions at Digital Equipment Corporation, Compaq Computer, HP, Raytheon, and AT&T.

Ken is recognized as an industry expert and trusted resource for global environmental regulations and has conducted environmental compliance seminars and training in the USA, Canada, and Mexico.

For more information, please contact Ellie White at 603.271.8444 or email ellie.white@dred.state.nh.us
